

(a) the semicircle and its 3- and 5-segment regressions at level 5

- semicircle
- - 5 segments, no length penalty: max distance to the arc 0.279, length/chord 1.96
- 3 segments, length penalty 0.03: max distance to the arc 0.205, length/chord 1.68
- 5 segments, length penalty 0.03: max distance to the arc 0.047, length/chord 1.60

(b) the digit 5 and its 5-segment regression at level 5

- digit 5, 7 segments
- 5-segment regression, length penalty 0.03
